EDUCATION

GLA University, Mathura **May 2026**
B.Tech in Computer Science *India*

EXPERIENCE

Paytm **July 2026 – Till Date**
Java Backend Developer, Intern *Noida, India*

- Contributed to real-world Paytm Payment Gateway workflows for Net Banking using Java, Spring Boot, and REST APIs, covering payment, refund, and status-enquiry transactions across partner banks
- Implemented bank-facing request/response integrations and performed local and QA testing of end-to-end payment flows, validating transaction scenarios and integration fixes
- Debugged payment failures using logs and end-to-end tracing; collaborated with partner banks and the Payment Gateway team to resolve integration issues and improve transaction reliability

Capgemini — Analyst / A4 **Dec 2025 – May 2026**
Java Full Stack Developer, Intern *Mathura, India*

- Completed hands-on Java Full Stack training covering Core Java, Java 8 features, OOP, Collections, Streams, Exception Handling, Spring Boot, Microservices, and REST APIs
- Designed and developed 2 microservice-based applications with database integration, implementing modular backend services and inter-service communication using Spring Boot
- Collaborated with mentors through regular technical discussions, code reviews, and evaluations; incorporated feedback to improve code quality, debugging, problem-solving, and software development practices

PROJECTS

ProjectHub — Real-time Collaborative Project Management Tool **Jun 2025 – Aug 2025**

- Engineered a MERN-based project management platform with role-based access control and real-time collaboration
- Implemented Socket.io for real-time task synchronization and event-driven communication across users
- Developed Chart.js analytics dashboards for productivity metrics, task completion, and project tracking

Wisebook — AI Handwritten Note Digitization Platform **Jan 2025 – Feb 2025**

- Engineered an AI-powered note digitization platform using Google Cloud Vision OCR and OpenAI APIs
- Implemented AI-driven summarization, key insight extraction, and semantic search capabilities
- Transformed handwritten notes into structured digital records for improved searchability and accessibility

Rail Vista — Real-time Rail Journey Assistant **Oct 2024 – Jan 2025**

- Engineered a real-time railway assistance platform using the MERN stack for live journey monitoring and passenger support
- Implemented WebSocket-based emergency alerts and live passenger updates for real-time communication
- Optimized MongoDB queries and REST APIs to improve response time and handle concurrent passenger requests efficiently

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, Spring Boot, Microservices, REST APIs, JWT Authentication
Databases & Cloud: MongoDB, MySQL, AWS
Tools: Git, GitHub, Postman, Socket.io, Docker, Vercel, Render
Core CS: Data Structures & Algorithms, OOP, DBMS, OS, CN

ACHIEVEMENTS & CERTIFICATIONS

- Led International Ideathon 2026 with participation from 391+ universities across 7 countries, scaled through 100+ campus ambassadors, and sponsored by Featherless AI (USA)
- Earned the Google AI Professional Certificate on Coursera (June 2026).
- Completed JioPC AI Foundation Course in AI Basics & Prompt Engineering (2026)
- Earned "What Is Generative AI?" certificate from LinkedIn Learning (2025)
- Finalist, HackSagon IIIT Gwalior (2025) — selected from 200+ teams
- Solved 400+ DSA problems on LeetCode and participated in 40+ coding contests
